Toilet Training Readiness Checklist for Parents

Read through each question and mark the appropriate keys: Yes ✓ No X

Sr. No	Skills	Yes	No	Comments
1	Is your child developmentally age appropriate (2- 3 years and above) to be toilet trained?			
2	Does your child have any medical condition or on any medications that affects his/her toileting pattern?			
3	Does your child have any sensory issues?			
4	Have you ever attempted to toilet train your child before?			
5	As a parent are you ready to dedicate your time and efforts to implement Toilet Training Program?			
6	Do you have enough data about your child's urination and defecation pattern?			
7	Does your child indicate his/her need for urination?			
8	Does your child indicate his/her need for defecation?			
9	Are you using any visuals for your child at home?			

Mention the Current Status of Your Child's Toileting:
